

I very much enjoy listening to the K-LOVE radio station in my local community. I sincerely hope that it is not forced off of the air because of proposed rule changes regarding LPFM service. My family listens daily to K-LOVE and we love the wholesome, family-friendly programming it provides. I know of many other families in our area that value the positive impact this radio station has in our community and all across America. I believe the service provided by K-LOVE provides the public an encouraging and uplifting message which is so valuable to my family. Thank you for considering my comments on this issue.
